

Forces Are All Around You

Get Started

There are many types of forces. Forces keep a helicopter flying and a canoe floating. Forces launch a rocket into space. Forces are all around you.

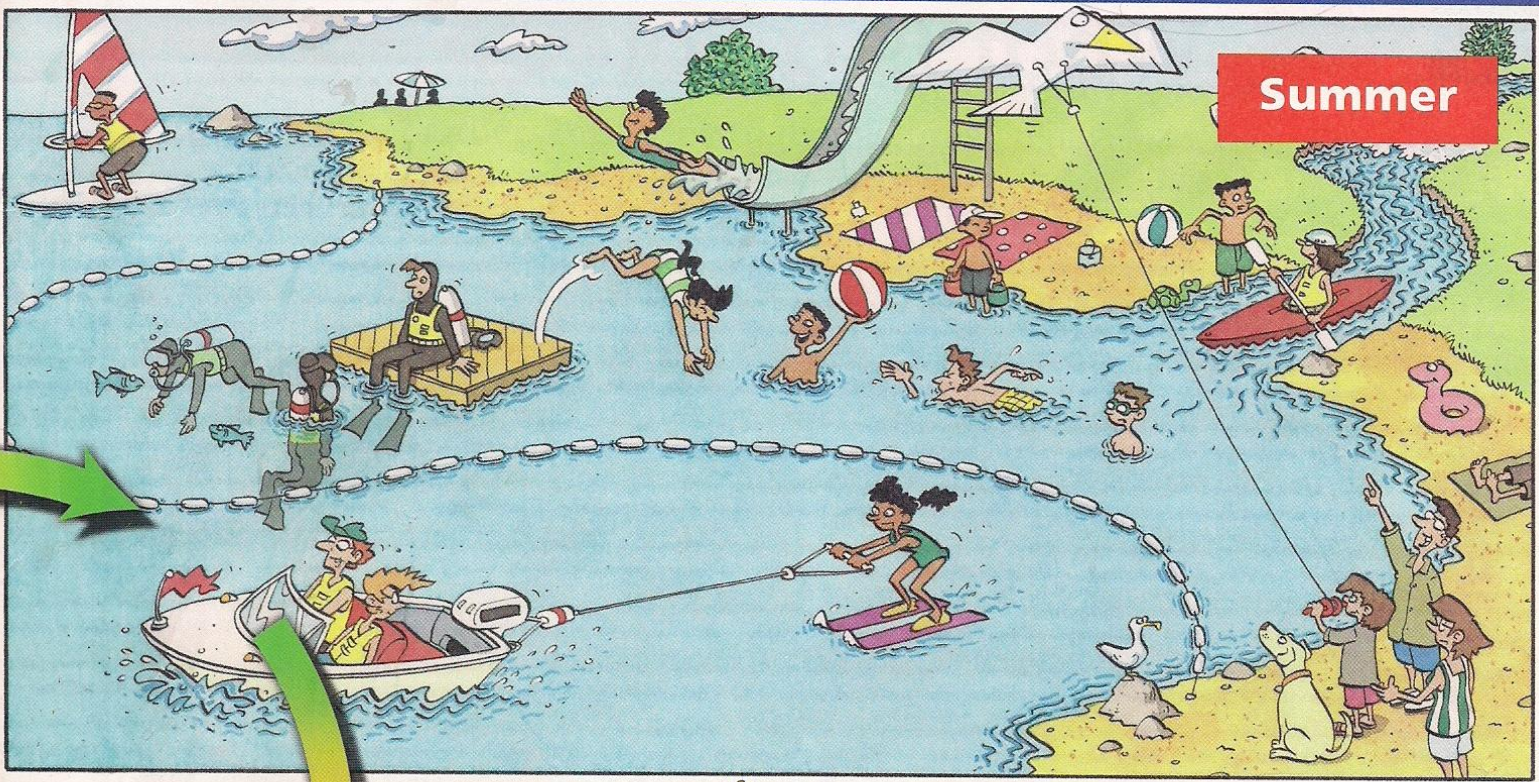

You can't see forces. You can only see what forces can do. Look at the pictures below to see some of the many things that happen because of forces.

Spring

Winter

Summer

Fall

Work On It

Look at the pictures. What do you think a force is?

Communicate

1. Write down the questions that you have about forces.
